

WORK PERMIT PROCESS DENMARK

For Non-EU consultants who are to start work in Denmark

In addition to a duly signed Contract of Employment one must obtain a valid work and residence permit to be able to start work in Denmark. GTS Nordic is Fast-Track certified by Danish Immigrations authorities which means that the work and resident permits can be obtained in two ways under the Fast Track with immediate job start also known as Quick job start:

1. Work permit process for Non- EU consultants who already are in Denmark:

Processing time 2 to 3 days.

Processing time 2 to 3 days.
Either you are in Denmark and changing to a new job/ new employer or possesses a valid entry visa to enter Denmark or are residing in one of the Schengen states, we submit your Work Permit application online, and thereafter, you deliver biometrics at Immigration authorities (SIRI's) office in Denmark. At the same time, a pre-approved / provisional work permit letter is granted to you which enables you to start work immediately. As soon as we receive a letter of actual work permit approval (usually within 30 days) we take contact with consultant to guide with mandatory local registration and in opening a Danish bank account which is one of the conditions under work permit.

2. Work permit process for Non-EU consultants living abroad:

Processing time 2 to 3 weeks.

For those consultants living in their home country or residing in another Non-EU country, and do not have a valid entry or Schengen visa, we submit work permit application online and biometrics is delivered in consultant's home country at their nearest VFS center. VFS is a third party involved to assist Embassy in handling work permits and visas. Therefore, there are some additional Embassy/ VFS fees applicable that is approx. EUR 225. (Fees may differ in different countries).

GTS guides through the entire procedural period and keep liaison with Danish Immigrations and the consultant. Once the work permit is approved, consultant is notified both by GTS as well as by the local VFS. Upon receipt of approved work permit, consultant may travel to Denmark and start work. Soon after arrival, we take contact again with the consultant to guide with completing the mandatory local registration and opening a Danish bank account which is one of the conditions on work permit.
